Avoiding the use of I, me and my

It could be suggested that...

The facts suggest that...

This means that...

It can be inferred/deduced...

From the evidence collected it can be resumed/acknowledged/decide that...

It is evident that...

It is, therefore, apparent that...

Most experts agree/disagree...

Analysis of the data suggests...

Popular opinion does not support...

This evidence supports the idea that...

Generally held beliefs match...

The trend suggests...

This leads to the conclusion that...

Clearly it is obvious that...
